

## The elements of time

---

WHAT EXACTLY ARE “the elements of time”?

For us, as fine watchmakers, the answer has three perspectives: the past, the present and the future. The Park Hill is our heritage and classic icon model. An updated and refined version – The Park Hill II – is now being introduced. It’s a slimmer and even more delicate timepiece. The handmade steel case houses a high precision quartz movement with circular date dial at 3 o’clock, and the metal bracelet in supreme stainless steel is hand polished to ultimate perfection.

These are the elements of our time.
